# Experience infinite configuration possibilities with Drift modular seating.

In the ever-evolving landscape of workplace design, the need for more connection and collaboration remains constant. As the boundaries between public and private workspaces blur, the demand for versatile solutions in reception, break-out and meeting areas has become increasingly apparent.

Inspired by changing movements and natural forms, Drift is a dynamic and flexible solution that fosters connection and facilitates collaboration within the workplace.

# Drift's modular components are made to adapt, change and move with ease.

The Drift collection balances soft seating comfort and style with workplace functionality and longevity.

It is designed to change with its environment. Modules are easily reconfigured and built upon as spatial requirements and workplace needs evolve.

A collection of base seat units can exist alone or come together to create fluid, organic shapes or traditional sofa formats. Screens can be added for height, privacy and acoustic shielding.

# Adding to the collection, Drift Collab settings provide a space to meet and work together.

Drift's collaborative settings are a space for conversation and creativity to flourish.

Drift seamlessly integrates technology, including interactive visual displays, making it an ideal place to host meetings and presentations.

# Aspect Design.

**As furniture designers,  
our user-centric approach  
places people at the heart  
of every decision we make.**

Applying 40+ years' of experience and craftsmanship, we create furniture to inspire and support people in their work every day. Manufacturing locally, and with full in-house design capability, we collaborate with interior designers, architects and clients to tailor-make environments.

We're here to support you in creating workplaces that encourage productivity, creativity and collaboration. High-performing spaces where high-performing people are empowered to do their best work.
