# Precision craftsmanship, solid construction and comfort.

Again Collection:  
Bent wood where you would not expect it. The chair and barstool are proof that a traditional wood-bending technique knows few limits, even in forms usually reserved for metal furniture. Inspired by the shape of a tennis racket, a generous arch crafted of solid beech wood embraces a plywood seat and backrest. The collection boasts precision craftsmanship, solid construction, comfort and a variety of upholstery options — all in a stackable design. You are sure to return to this collection again and again.

# Designed by Alexander Gufler.

Born in 1979 in the Italian spa town of Merano, Gufler started his career by following in his father's footsteps as a jeweller, and studying jewellery-making in the German city of Pforzheim. However, during his studies his interest began to turn in the direction of product design, which he then studied at the University of Applied Arts in Vienna.

Since 2010, he has run his own studio in the Austrian capital, where he works with local and international clients. His design work highlights detail, simplicity and an in-depth knowledge of the materials and manufacturing processes. Products he designed have been exhibited at a number of international exhibitions and awarded prizes in prestigious design competitions.
