

Studio Pod.

aspect 

Studio Pod modular workplaces.

Studio Pods are free-standing, flexible rooms that easily adapt and move to suit you, your space, and your people.

A modular, relocatable system that's affordable and fast to set up.

Designed in collaboration with architects and industry specialists to meet the dynamic needs of the modern office.

High-performance acoustic materials for uninterrupted focus and privacy.

Enabling dynamic workplaces.

The agile workplace isn't just an open-plan layout. It needs flexibility and adaptability to meet the changing needs of your team.

Studio Pod creates flexible zones

Agile offices must accommodate different zones of activity. Spaces for socialising, focus, collaboration, and catch-ups. Studio Pod is a solution for this kind of mixed use.

Dynamic workplaces should consider:

- The needs of the people who use the office space
- Which locations within the office best facilitate collaboration
- How a space can be agile, effortlessly adapting to various uses

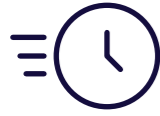

Find your focus.

Studio Pod's acoustically insulated space is made for focused collaboration and thinking.

A research-based solution

Well-planned offices need to provide zones for focused work and staff collaboration. Studies show open-plan offices distract staff. Office noise can lead to lost productivity and a reduction in workplace satisfaction. Studio Pod's design was informed by this research, resulting in an innovative, acoustically insulated space.

Fast installation

From 5 hours to install, Studio Pod is a compelling alternative to the traditional build process, which is costly and disruptive.

Compliance

Studio Pod's sprinkler and smoke detection features meet safety requirements so you and your team are always kept safe. Studio Pod is installed to comply with relevant seismic standards.

Level footed

Studio Pod's adjustable floor track allows it to be levelled on existing floor plates. Whilst removing the need for a separate floor component, this also provides a level entrance for users and easy wheelchair access.

Whisper quiet acoustics

Aspect partnered with leading acoustic engineers to design a wall composite with selected materials such as 12mm Hush Glass – offering the highest performing acoustics available in the industry.

Plug and play

Plug in and go! Studio Pod features a fully integrated and certified electrical system with data reticulation, so you can simply get on with work.

The details that matter

Self-closing doors, universal mounting brackets, and motion sensors. We've thought about the details so you can focus on what matters.

Keep your cool

Our patented air ventilation system keeps air fresh and temperature regulated. That means you stay cool and maintain your focus.

Designed by collaboration

Studio Pod's high-performance features were achieved through thousands of hours of collaboration with engineers and specialists. Every detail was meticulously researched, tested and refined, culminating in a highly resolved solution without compromising what's important.

Designed for high performance.

A system made to flex.

Every component of the Studio Pod system has been carefully considered.

Any size for any space

Studio Pod can adapt to your space, providing options from single-person phone booths to ten-person meeting rooms.

Wheelchair accessible

Studio Pod is designed with accessibility in mind, allowing for wheelchair access.

Agile accessories

Studio Pod adapts to your needs with a range of optional accessories that enhance user experience.

Modular units

Design benefits of Studio Pod include flexible modular units, which enable your solution to evolve with your environment.

Ultimate design freedom

Studio Pod provides a canvas for you to customise. You can blend your choice of materials and functionality to provide a tailored solution for your workplace.

Locally made.

Quality matters. That's why we have chosen to design and manufacture the Studio Pod range locally.

Designed in Australasia

Studio Pod was developed in collaboration with a team of local designers, engineers, and industry specialists.

Made in Australasia

Our designers had direct access to the team on the factory floor. In-house manufacturing means better quality control and faster turnaround times.

Certified compliance

Our products meet ISO manufacturing standards and are ECNZ and GECA certified. Studio Pod also adheres to seismic, fire, ventilation, and accessibility standards in Australasia.

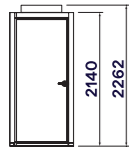

“Our Studio Pod is designed and made right here in Australasia. We knew we wanted to build locally to allow for a collaborative design, to create something special. This let us problem-solve in new and innovative ways, right here in our back yard.”

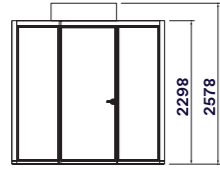

– Ashley Simmons, Director

Choose your size

Choose your size and configure to suit your workplace.

Studio Pods range from 1m to 3.65m in length – from a small space for a quiet phone call, to a mid-size meeting room to collaborate, or a larger space to gather the whole team.

Build your neighbourhood

Every office is different. Choose the arrangement that fits your team.

Reflectance palette.

This palette provides a considered and balanced workplace for focus and clarity of thought. Its rich tones reference nature and steel, creating a high-end look and feel.

Ceiling	Furniture	Walls	Metal
 Nightlife	 American Oak	 Obscured glass	 FlaxPod
 Tasmanian Oak	 Persis Ink	 Perforated leather	
 Woven Image	 Ariana	 Ribbed lining	
		 Woven Image	
		 Pinnacle	

Note: This collection is not an exhaustive list of finishes. For the full suite refer to the detailed spec sheet.

Texture palette.

A collection with warm tones, natural fabrics, and organic textures makes this an inviting palette. Its earthy materiality welcomes and grounds thought for focused idea generation.

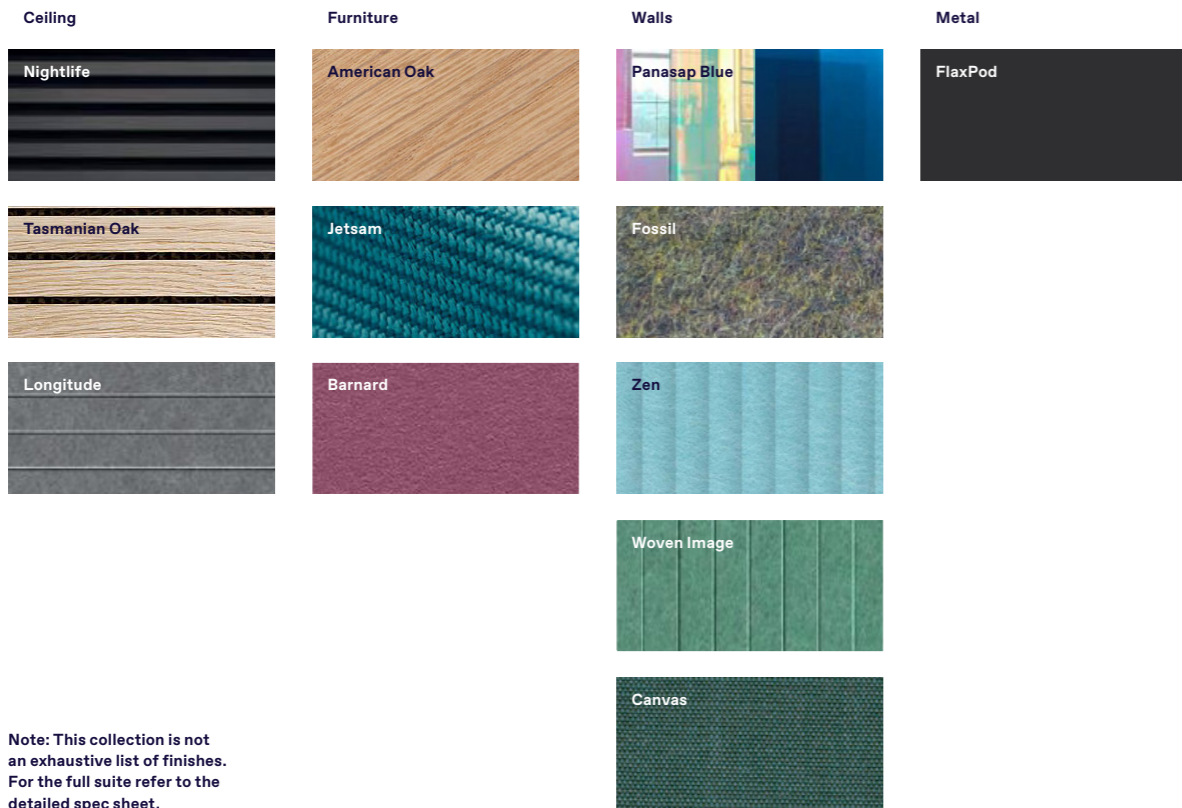

Ceiling	Furniture	Walls	Metal
 Bonded wood	 American Oak	 Reeded glass	 Champagne
 Tasmanian Oak	 Contribution	 Terrain	
 Cube Opera	 Waterborn	 Mud Ribbed	
		 Mordon	
		 Koda	

Note: This collection is not an exhaustive list of finishes. For the full suite refer to the detailed spec sheet.

Iridescent palette.

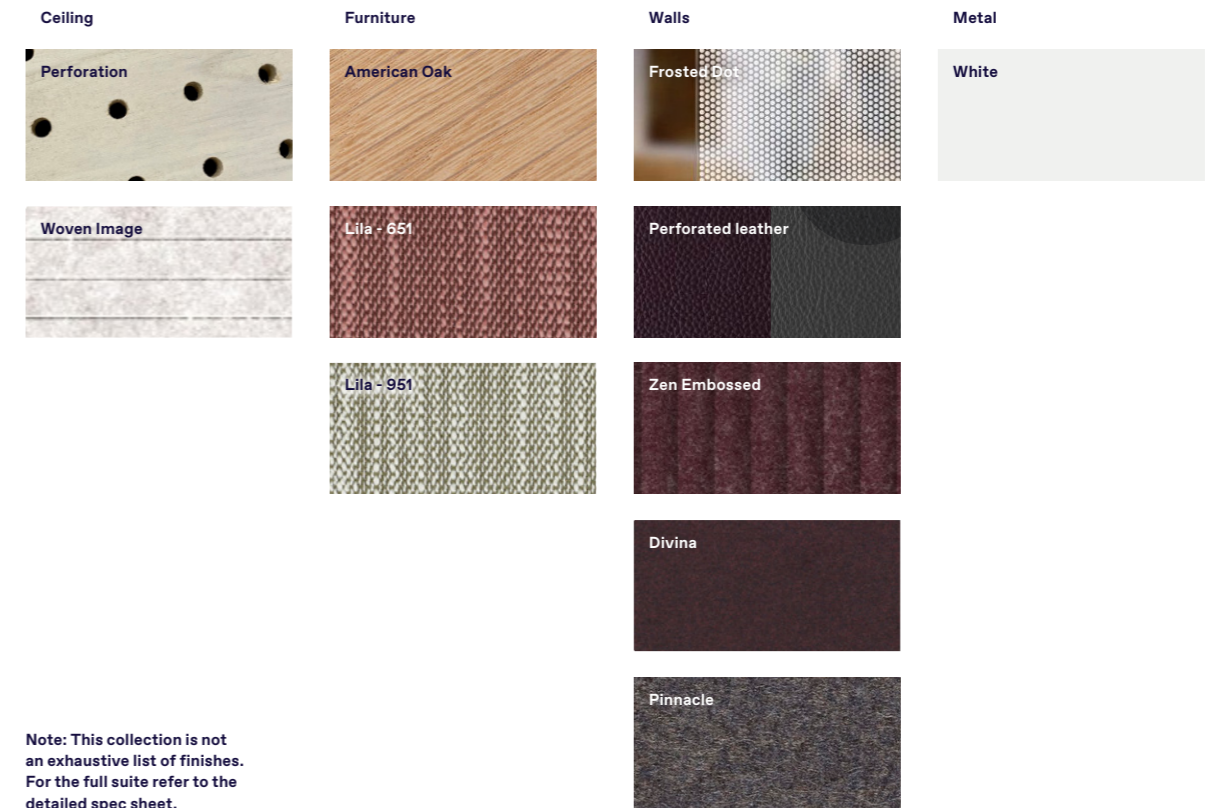

This sleek collection uses vibrant colours to promote brain stimulation and thought generation. Blues, green, and purples play off each other on bold finishes for a hi-tech feeling.

Note: This collection is not an exhaustive list of finishes. For the full suite refer to the detailed spec sheet.

Diffused palette.

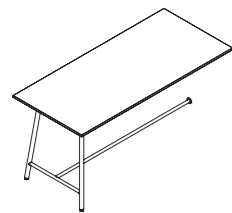

This palette has light, soft tones that fit into any space. Its muted and neutral colours create an intimate space for privacy and calm.

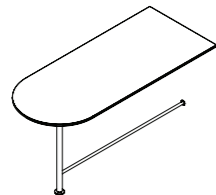

Note: This collection is not an exhaustive list of finishes. For the full suite refer to the detailed spec sheet.

We believe that high-performing spaces enable high-performing people.

We place a person's comfort and ease-of-use at the heart of every product and system we create. Aspect designers and workplace specialists help you create a complete office furniture solution that will inspire and support people in their work every day.

Back in 1982, from a small factory in Auckland, Aspect founder and CEO Richard Simmons made his very first furniture prototypes. Driven by a passion for craft and beautiful engineering, he steadily grew the business and is joined today by his three sons and an expert team of designers, engineers and workplace specialists across New Zealand and Australia. Today, Aspect makes collections at the leading edge of international product design, technology, and workplace best practice.

Our focus on crafted, fully resolved commercial furniture means Aspect collections are trusted by some of the largest public and private organisations around Australasia. With nearly 40 years' experience designing and manufacturing collections for the modern workplace, our office furniture has a reputation for being robust, ergonomic, and comfortable throughout the working day.

We make over 70 per cent of our product range in New Zealand and Australia for true control over design, quality, customisation, and lead times. You receive products quickly and reliably from a quality-assured environment. In addition

to speed and flexibility, local manufacturing also creates a smaller environmental footprint.

Our team of product designers and workplace specialists help you define and select a furniture solution to meet your workplace aspirations and project budget using durable and environmentally sound products.

Direct access to our furniture designers means greater flexibility and control over your solution, as we work from our collections, adapt existing products, or design new components.

Aspect Furniture operates ethical and sustainable business practices. We have certification from Good Environmental Choice Australia (GECA) and Environmental Choice New Zealand (ECNZ), and our products are aligned to the Green Star rating tool. Independent certifiers regularly audit our premises under the ISO 9001 and ISO 14001 quality and environmental management systems. Similarly, the health and safety of our employees is vital to our success, and we are certified to the globally recognised AS/NZS 4801 and ISO 45001 occupational health and safety standards.
